HAS THE SHOE YOU WEAR A NAME?

There is much in a name, when it is a good name. If the shoe you are wearing hasn't a name, and it pinches your tender foot, you will not be blamed for giving it the name it deserves, whether it sounds well or not. If the shoe doesn't fit you, and it has a name, forget it.

When you find the shoe that fits—fits from the time you put it on—so that you wear it right away with real comfort, take careful note of the name of that shoe. Remember it as the name of a friend.

If it is "INVICTUS" it is a faithful friend—true to its comfortable shape and style to the end of its long life.

"America is setting the pace for us all," confessed Bismarck, "because her leaders know the value of time." Millions of dollars are

being poured into the building of a steel plant—to clip a few seconds off the making of a steel rail.

Wherever time is measured by minutes and seconds, instead of hours—the HOWARD is the court of final appeal.

The HOWARD has class—it has quality and character. In accuracy, design and finish it shows the dominant spirit of America's leaders.

It has traditions and a history that Americans are proud of.

Every HOWARD is made and adjusted as a fine watch—and not third in its own class by the HOWARD watch-makers. Printed ticket gives the price—\$40 to \$100.

We carry this distinctive watch and would be glad to show it to you.

Aristocracy vs. Democracy

The curtailment of the power of the House of Lords at the hands of the Commons, brings the wave of Democracy up to high water mark.

Aristocracy in Great Britain had long held sway; indeed was hoary with age. That it was attended with much good in many instances, and at particular crises in the Nation's history, will readily be admitted. There are, however, numerous incidents on record where the power wielded by it was abused, to the detriment of the common people.

With the advancement of education and the promotion of knowledge, Democracy has steadily risen until it has reached its present eminence. The struggle all along between the two opposing forces was a titanic one.

To us in this Western country, untrammelled by the traditions of the past ages, it seemed little short of ridiculous that unworthy sons of worthy fathers should by virtue of the hereditary principle be entitled to seats in the highest tribunal of the nation.

This is an age when merit and fitness are absolutely essential, irrespective of class or family.

It will be interesting to watch developments in the near future.

So long as Democracy is governed by a wise moderation, and is influenced by the utilitarian idea of "the greatest good for the greatest number," will it achieve a splendid destiny, and be of untold blessing to the world.

The Census

The newspapers have been reporting omissions on the part of the enumerators of the Census, especially in the large cities of the Dominion, and notwithstanding the care of the Census Office to enjoin a performance of accurate and full work on the part of enumerators it is possible that in some instances persons and even families have been passed over. It is known at the office that many reports of omission are without foundation, and that generally the enumeration has been well and fully made, although it is yet too early for a final decision. The fact is that often the census of a district or enumeration area was not completed when complaints were first publicly made.

The Census Office earnestly desires that the name of every man, woman and child in the country, as well as all other information called for in the schedules, should be recorded as the statute and the instructions require. But lest there be an inadvertent omission on the part of any enumerator, the Office respectfully invites the co-operation of the public for the completion of a full census. To this end persons who believe or suspect that they have not been taken are asked to notify the Chief Officer of the Census at Ottawa, giving their names, post office address, street and number if residing in cities towns or villages, or concession and number of lot if living in country places.

Neapolis Notes

Jesse Bell wears a smile that won't come off these days. It's a daughter of standard weight. Congratulations. Quite a number took in the camp meeting at Didsbury last Sunday from Neapo.

Neap and Guy Oldham have returned from Lawsonburg, where they have been for ten days looking after homestead duties in erecting buildings, fences, etc. They report favorably of the crops, lots of rain and grain ripening and abundant gardens.

Albie Shellenberger has been east of the Red Deer looking at the country.

New song books have been purchased from the Bethel Union Sunday School, which is quite an improvement. Everybody come and help learn the new pieces.

R. J. Robinson of Three Hills was visiting friends here.

NEAPOLIS W. C. T. U. NOTES

The ladies of the W. C. T. U. of Neapo gave Mrs. Wiltse a farewell reception at the home of her sister, Mrs. Stuart, on Thursday afternoon. The meeting was instructive as well as enjoyable. An elegant three course luncheon was served. At the close of the meeting a beautiful lily spoon was presented to Mrs. Wiltse. We all wish Mr. and Mrs. Wiltse happiness and prosperity in their new home.

Our next regular meeting will be held at Mrs. Beattie's on Thursday afternoon, August 10. "The Work of the Press" will be the subject. Everybody welcome.

An ordinary case of diarrhoea can, as a rule, be cured by a single dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This remedy has been a superior for over twenty years. For sale by dealers everywhere.

Grain Raising Experiences By A. E. R.

Corn—Take a piece of land with slope to north or east some distance from slough or coulee. Plant in rows 15 inches apart each way by May 15; three kernels to the hill. Give level cultivation. It should never be killed up as the roots want the sun. Pull the suckers as soon as tassels appear as they take the substance away from the main stalk.

Currents—Set out the bushes among willow bushes and you will be surprised at results.

Potatoes—Let potatoes sprout about one inch before planting. Cut one eye to the piece and be careful not to break the sprout. Plant one piece to the hill. Hill up gradually before sets come on. Plant first week in June.

How to Keep Potatoes New Till Next Summer—Dig a hole two feet square by six feet deep in a dry place. Put a few inches of straw in the bottom. Put in the potatoes dry and fill the hole out half full. A few inches of straw on top, fill one-half way to top and then tamp it down. Then fill balance of hole and tamp solid again. Cover to keep the moisture from coming in at the top. Leave potatoes in ground till next June then take out. Take a kettle of boiling water and put a few hands full of ashes in. Take a small basket that will hold out a gallon, fill basket with potatoes, dip in just a second and let water drain off. The hot water and ashes keep the potatoes from sprouting. Keep in cool place and you will have new potatoes.

Permission to have bull fights in Toronto has been refused. Ice cream on Sunday and the festive matorador are too much like frowls.

Land Titles Act Notice

Proof having been made to my satisfaction of the accidental loss or destruction of Duplicate Certificate of Title "F-1-97" issued for that part of the South East quarter of Section Twenty-four (24) in Township Thirty-one (31), Range Two (2), west of the Fifth Meridian in the Province of Alberta, described as follows:

COMMENCING at the South East angle of the said Quarter Section, thence North along the East boundary thereof Ten rods, thence West parallel with the South boundary thereof Eight rods, thence South parallel with the said Eastern boundary thereof Ten rods more or less to the said South boundary, thence East along the said boundary Eight rods to the place of commencement, containing one-half of an acre, more or less, to John Koeh, and dated the 31st day of October, A. D. 1906.

I GIVE NOTICE that I intend after the publication of this Notice in the Didsbury Pioneer once a week for four consecutive weeks, to issue to the said John Koeh a new Duplicate Certificate of Title in lieu of the one so lost.

DATED this 13th day of July, 1911.

\$3,600 in Cash Prizes for Farmers

ARE you one of the thousands of Canadian farmers who have used or intend using Canada Cement for the construction of some farm utility? If you contemplate building anything whatsoever of concrete, make up your mind right now to build it with a view to winning one of the prizes we are offering. Read the rest of this announcement and you will learn how you may try for a share in the \$3,600 we are giving away, to encourage the use of cement upon the farm. Throughout Canada the farmers have taken such a keen interest in our campaign that it has inspired us to go further along these educational lines. We have decided, therefore, to offer a series of four \$100.00 prizes to each of the nine Provinces, to be awarded as follows:

PRIZE "A"—\$100.00 to be given to the farmer in each Province who will use during 1911 the greatest number of bags of "CANADA" Cement for actual work done on his farm.

PRIZE "B"—\$100.00 to be given to the farmer in each Province who uses "CANADA" Cement on his farm in 1911 for the greatest number of purposes.

PRIZE "C"—\$100.00 to be given to the farmer in each Province who furnishes us with a photograph showing best of any particular kind of work done on his farm during 1911 with "CANADA" Cement.

PRIZE "D"—\$100.00 to be given to the farmer in each Province who furnishes the best and most complete description of how any particular piece of work shown by photograph sent in, was done.

In this contest no farmer should refrain from competing, because of any

feeling that he may have little chance against his neighbor who he thinks might use more cement than he does.

For it will be noted that Prizes "C" and "D" have no bearing whatever on quantity of cement used. The man who sends us the best photograph of so small a thing as a watering trough or a hitching post, has as much chance for Prize "C" as a man who sends a photograph of a house built of cement—and the same with Prize "D" as to best description.

Canada Cement is handled by dealers in almost every town in Canada. Should there not happen to be a dealer in your locality, let us know and we will try to appoint one.

Contest will close on November 15th, 1911, and all photos and descriptions must be in our office by that date. Awards will be made as soon as possible thereafter. The jury of award will consist of: Prof. Peter Gillespie, Lecturer in Theory of Construction, University of Toronto; W. H. Day, Professor of Physics, Ontario Agricultural College, Guelph; and Ivan S. Macdonald, Editor of "Construction."

Now, you cannot hope to do concrete work to the best advantage unless you have a copy of our free book, entitled, "What the Farmer Can Do With Concrete." This book tells how to construct well-nigh anything on the farm, from hitching post to silo. Whether you enter the contest or not, you'll find this book most helpful. A post-card asking for the book will bring it to you promptly. Send for your copy tonight. From your cement dealer or from us, you can obtain a folder containing full particulars of contest. If you send to us for it, use the coupon provided in this announcement.

Baby Eczema for Three Years

Three Doctors and Scores of Treat-
ments Failed

The Dreadful Itching Was Stopped
and the Sores Healed by

DR. CHASE'S OINTMENT

Here is an illustration of the won-
derful control which Dr. Chase's
Ointment has over torturing itching
eczema. By its soothing influence it
stops the itching, and it heals the
sores as if by magic.

Mrs. Win. Miller, St. Catharines,
Ont., writes:—"My daughter, Mary,
while six months old contracted
eczema, and for three years the dis-
ease baffled all treatment. Her case
was one of the worst that had ever
come under my notice, and she ap-
parently suffered what no pen could
ever describe. I had three different
doctors attend her, all to no pur-
pose whatever, and all kinds of
balms, lotions and soaps were tried,
with no results.

"Finally I decided to try Dr.
Chase's Ointment and to my surprise
she immediately began to improve,
and was completely cured of that
long-standing disease. That was four
years ago, when we lived at Cornwall,
Ont., and as not a symptom has
shown itself since, the cure must be
permanent. With a grateful heart I
give this testimony to the great value
of Dr. Chase's Ointment."

In scores of ways Dr. Chase's Oint-
ment is useful in every home to al-
leviate skin irritations and heal and
cure, wounds and sores. 50 cents a
box, at all dealers, or Edmanston,

Bernard Shaw.

Mr. Bernard Shaw's retirement
from the journalistic lists was sig-
nified by his marriage to Miss Har-
riet Frances Payne Townsend, who
nursed him back to health and
strength—and matrimony—after a se-
rious accident. "I was very ill when I
was married," Mr. Shaw once wrote,
"altogether a week on crutches, and
in an old jacket which the crutches
had worn to rags. I had asked my
friends, Mr. Graham Wallis, of the
London School Board, and Mr. Henry
Salt, the biographer of Shelley and
De Quincey, to act as witnesses, and
of course, in honor of the occasion
they were dressed in their best
clothes. The registrar never imagined
I could possibly be the bridegroom;
he took me for the inevitable beggar
who completes all wedding produc-
tions. Wallis, who is considerably
over six feet high, seemed to him to
be the hero of the occasion, and he
was proceeding to marry him calmly
to my betrothed, when Wallis' think-
ing of the formal rather strong for a
mere witness, hesitated at the last
moment, and left the prize to me."

Shaw is the quintessence of vital
energy. He rushes in and out of
one task to another, with a few-
rest, almost frenzied activity. He
has a country house in Hertfordshire.
When I asked him why he selected it,
he took me over to the old English
church, replete with mystery and
sanctity, and pointed to the inscrip-
tion on a tomb near by—Jane Ever-
sey, Born 18th, Died 18th. Her
time was short. "I thought," said
Shaw, "that it could be truthfully
said of a woman who lived to be
eighty years that her time was short,

Designer of Coinage.

Sir Thomas Brock, who earned a
knighthood on account of the master-
ful manner in which he carried out
the Queen Victoria Memorial, had
to encounter a great deal of obedi-
ence from his father, a Worcester
builder, in deciding to follow an ar-
tistic career. Indeed, it was only
with his mother's help that he was
able to come to London, where he
secured an apprenticeship in a sculp-
tor's studio, having soon brought him-
self in the magnificent salary of \$10 a
week. It was Sir Thomas who de-
signed the later Victorian coinage.

In 1901 the Government invited de-
signs for the coinage. Mr. Brock's
being considered most suitable.
Four years later the bronze coinage
was altered for the first time in
thirty years, and, as is the formu-
lar case, Mr. Brock's initials were ap-
pended to it. Anybody looking
carefully at the coinage of that period
may notice the tiny letters "T.B." be-
neath the Queen's shoulder and a
little to the right of the central line.
It is worthy of remark that Mr.
Brock accomplished the design with-
out a single sitting from the Queen.
He worked from photographs which
he found in shop windows.

Burglary in England.

Burglary cannot be committed in
a day's daytime. The English rule is
that if there is light enough to see
the face of the intruder there is no
burglary. This, however, does not in-
clude night, for housebreakers
entering after nightfall, however
brightly the moon may be shining, is
legally a burglar. What is it, it is re-
asonably certain that he has entered
with the intent to commit felony,
for a tramp breaking into a house
to sleep may be a housebreaker but
is not in the proper sense of a word a
burglar. Burglary, however, may
consist in breaking out as well as
breaking in, for one who hides in a
house before nightfall to steal and
after stealing breaks out to get away
is just as much a burglar as he who
to effect his purpose breaks in.

When Cricket Playing Was a Crime.

Until a century and a half ago our
great national pastime in fact lived
in the statute book as a crime. The
game was declared illegal in the time
of Edward IV., owing to its having
become so popular as to interfere
with archery, the then sport of kings.
The law against it was vigorously
enforced, and every person convicted
of playing the game was fined 50
cents or sent to prison. It was not
until the formation of the famous Hudders-
field club in 1740 that the statute was re-
pealed.—Pall Mall Gazette.

Scull and Skull.

Mr. George Altmeyer, the actor,
tells a good story of the old days of
the touring fit-up companies. They
were at Oldham, playing a melodrama
called "Current Cash." One of the
properties essential to the piece was
a light rowing scull, with which the
hero had to push himself off into the
stream. When the company reached
Oldham the scull was missing, but a
property man promised to have one
ready for the evening's performance.
That afternoon, with evident pride,
he produced from the sacred recesses
of his room a real human skull, and
when it was pointed out to him that
it was hardly what was required he
declared, in haughty tones: "If that
skull's good enough for Hamlet, it
ought to be good enough for a piece
like 'Current Cash.'"

**WHEN SUMMER COMES
GUARD YOUR BABY**

The summer months are the most
dangerous of the year for the little
one. The complaints of this season
come so quickly that often a pre-
cious little life is beyond aid before
the mother realizes baby is ill. Colic,
diarrhoea and cholera infantum are
all rife at this time. The mother
must guard her baby's health every
minute. She must be careful of his
food and careful that his stomach is
kept sweet and his bowels move regu-
larly and freely. To do this nothing
can equal Baby Oint Tablets—they
are mothers best friend at all times
of the year, but more especially in the
summer, when, if given occasionally,
they act as a preventative of those
dreadful summer troubles, or if they
do come on suddenly Baby Oint Tablets
as quickly remove the cause and
baby will soon be well again. The
Tablets can be sent by mail at 25 cents a box from The
Dr. Williams' Medicine Co., Brock-
ville, Ont.

An Oil of Merit.—Dr. Thomas' Electric
Oil is not a jumble of medical substances
drawn from the four corners of the
earth, but the result of the careful investi-
gation of the curative properties of the
oils as applied to the human body. It is
the result of a long and careful study
in public favor from the first. A trial of it
will carry conviction to any who doubt
its power to repair and heal.

CURED HIS BLADDER TROUBLE

Mr. Herbert H. Davis, of Liverpool,
says he owes Gin Pills a debt of gra-
titude which he can never repay. He
suffered for years with Bladder Trou-
ble, and could not pass urine except
with great straining, which caused great
pain. Mr. Davis sent for a free sample
of Gin Pills. The first dose did him
so much good that he ordered six
boxes and began to take them regula-
rly. A month's treatment completely
cured him.

You can try Gin Pills before you

Neapolis Notes

Jesse Bell wears a smile that won't come off these days. It's a daughter of standard weight. Congratulations. Quite a number took in the camp meeting at Didsbury last Sunday from Neapolis.

Robt and Guy Oldham have returned from Lacombe where they have been for ten days looking after homestead duties in erecting buildings, fences, etc. They report favorably of the crops, lots of rain and grain ripening and abundant gardens.

Alie Shellenberger has been east of the Red Deer looking at the country.

New song books have been purchased from the Bethel Union Sunday School, which is quite an improvement. Everybody come and help earn the new pieces.

R. J. Robinson of Three Hills was visiting friends here.

NEAPOLIS W. C. T. U. NOTES

The ladies of the W. C. T. U. of Neapolis gave Mrs. Witte a farewell reception at the home of her sister, Mrs. Stuart, on Thursday afternoon. The meeting was instructive as well as enjoyable. An elegant three course luncheon was served. At the close of the meeting a beautiful lerry spoon was presented to Mrs. Witte. We all wish Mr. and Mrs. Witte happiness, health and prosperity in their new home.

Our next regular meeting will be held at Mrs. Heattie's on Thursday afternoon, August 10. "The Work of the Priest" will be the subject. Everybody welcome.

An ordinary case of diarrhoea can, as a rule, be cured by a single dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This remedy has no a priori for diarrhoea. For sale by dealers everywhere.

Grain Raising Experiences
By A. E. R.

Corn—Take a piece of land with slope to north or east some distance from slough or coulee. Plant in rows three kernels to the hill. Give level cultivation. It should never be hilled up as the roots want the sun. Pull the suckers as soon as tassels appear as they take the substance away from the main stalk.

Cucumbers—Set out the bushes among willow bushes and you will be surprised at results.

Potatoes—Let potatoes sprout about one inch before planting. Cut one eye to the piece and be careful not to break the sprout. Plant one piece to the hill. Hill up gradually before sets come out. Plant first week in June.

How to Keep Potatoes New Fall Next Summer—Dig a hole two feet square by six feet deep in a dry place. Put in a few inches of straw in the bottom. Put in the potatoes dry and fill the hole at the top half full. A few inches of straw on top, fill one-half way to top and then tamp solid. Then fill balance of hole and tamp solid again. Cover to keep the moisture from coming in at the top. Leave potatoes in ground till next June then take out. Take a kettle of boiling water and put a few handfuls of ashes in. Take a small basket that will hold at out a gallon, fill basket with potatoes, dip in just a second and let water drain off. The hot water and ashes keep the potatoes from sprouting. Keep in cool place and you will have new potatoes.

Permission to have full fights in Toronto has been refused. Ice cream on Sunday and the festive motorcade are too much like travel.

Land Titles Act Notice

Proof having been made to my satisfaction of the accidental loss or destruction of Duplicate Certificate of Title "E. L. 97" issued for that part of the South East quarter of Section Twenty four (24) in Township Thirty-one (31), Range Two (2), west of the Fifth Meridian in the Province of Alberta, described as follows:

COMMENCING at the South East angle of the said Quarter Section, thence North along the East boundary thereof Ten rods, thence West parallel with the South boundary thereof Eight rods, thence South parallel with the said Eastern boundary thereof Ten rods more or less to the said South boundary, thence East along the said boundary Eight rods to the place of commencement, containing one-half of an acre, more or less, to John Roeth, and dated the 31st day of October, A. D. 1906.

I GIVE NOTICE that I intend after the publication of this Notice in the Didsbury Pioneer once a week for four consecutive weeks, to issue to the said John Roeth a new Duplicate Certificate of Title in lieu of the one so destroyed.

\$3,600 in Cash Prizes for Farmers

ARE you one of the thousands of Canadian farmers who have used or intend using Canada Cement for the construction of some farm utility? If you contemplate building anything whatsoever of concrete, make up your mind right now to build it with a view to winning one of the prizes we are offering. Read the rest of this announcement and you will learn how you may try for a share in the \$3,600 we are giving away, to encourage the use of cement upon the farm. Throughout Canada the farmers have taken such a keen interest in our campaign that it has inspired us to go further along these educational lines. We have decided, therefore, to offer a series of four \$100.00 prizes to each of the nine Provinces, to be awarded as follows:

PRIZE "A"—\$100.00 to be given to the farmer in each Province who will use during 1911 the greatest number of bags of "CANADA" Cement for actual work done on his farm.

PRIZE "B"—\$100.00 to be given to the farmer in each Province who uses "CANADA" Cement on his farm in 1911 for the greatest number of purposes.

PRIZE "C"—\$100.00 to be given to the farmer in each Province who furnishes us with a photograph showing best of any particular kind of work done on his farm during 1911 with "CANADA" Cement.

PRIZE "D"—\$100.00 to be given to the farmer in each Province who furnishes the best and most complete description of how any particular piece of work shown by photograph sent in, was done.

In this contest no farmer should refrain from competing, because of any

feeling that he may have little chance against his neighbor who he thinks might use more cement than he does.

For it will be noted that Prizes "C" and "D" have no bearing whatever on quantity of cement used. The man who sends us the best photograph of so small a thing as a watering trough or a hitching post, has as much chance for Prize "C" as a man who sends a photograph of a house built of cement—and the same with Prize "D" as to best description.

Canada Cement is handled by dealers in almost every town in Canada. Should there not happen to be a dealer in your locality, let us know and we will try to appoint one.

Contest will close on November 15th, 1911, and all photos and descriptions must be in our office by that date. Awards will be made as soon as possible thereafter. The jury of award will consist of: Prof. Peter Gillispie, Lecturer in Theory of Construction, University of Toronto; W. H. Day, Professor of Physics, Ontario Agricultural College, Guelph; and Ivan S. Macdonald, Editor of "Construction."

Now, you cannot hope to do concrete work to the best advantage unless you have a copy of our free book, entitled, "What the Farmer Can Do With Concrete." This book tells how to construct well-nigh anything on the farm, from hitching post to silo. Whether you enter the contest or not, you'll find this book most helpful. A post-card asking for the book will bring it to you promptly. Send for your copy tonight. From your cement dealer or from us, you can obtain a folder containing full particulars of contest. If you send to us for it, use the coupon provided in this announcement.

Please send me full particulars of Prize Contest. Also a copy of "What the Farmer Can Do With Concrete."

Adventist Meetings

The meetings being conducted by the Seventh Day Adventists in the large pavilion across the track are still in progress with a good interest. The program during the week will be as follows:

Thursday—Objections Answered, Friday—Spiritualism.

Saturday—Origin, History and Destiny of Satan.

Sunday—The Home of the Saved. Monday—Why the Son of God Became the Son of Man.

Tuesday—Temperance Lecture (illustrated) Wednesday—Living Testimony.

A stove has been placed in the tent which makes it very comfortable in the coolest evenings. All are cordially invited to attend each evening at 8 o'clock.

A Correction

Mr. Editor.

It has been brought to my attention that there is a disturbing rumour in Didsbury to the effect that Olds, La Combe, and Red Deer vote irrespective of the rest of the district. Allow me through the columns of your valuable paper to correct that error. The whole district from townships 20 to 47 inclusive are one together, and Olds, Red Deer, and LaCombe stand or fall with the rest of the towns and villages. It is only fair to say that two years ago Olds was erected into a special license district, but by an order in council Olds was restored to License District No. 3 and as stated stands or falls with the other places in the entire district.

Thanking you for space to correct the error. Yours sincerely,
W. G. W. FORTUNE.

Examine your chimneys. If you think they are not safe tear them down and build new ones with either pressed brick or blocks manufactured by the Didsbury Pressed Brick Co., especially for chimneys. We also manufacture building and foundation blocks. Call on M. S. Moyer, north end lumber yard.

We are now buying live chickens. Bring in all you have. N. Weicker.

The Royal Temperance Legion

Under the auspices of the above Society, an enjoyable social meeting was held on Monday evening at the grounds of the Baptist Church.

Various games were indulged in; and the local band very kindly contributed some musical selections which were well received.

During the evening, refreshments were served to the ladies and gentlemen. The Society deserves every encouragement and success for the efforts it is making towards uniting the people of the town—young and old—in a cause which aims at civic and national righteousness.

The President wishes to express the society's appreciation of the kindness of the band in coming to play, also to the ladies who so kindly sent refreshments, and to all the willing workers who helped to make the evening such a splendid success.

The Royal Temperance Legion holds its meetings every Monday evening at the Baptist church at 8 o'clock. All are heartily invited.

Baseball

People of Didsbury and surrounding country have enjoyed to quite an extent the past week some very good baseball playing on the part of the local baseball clubs. The boys have played good, clean ball, used good judgment and stuck to their work, which has won for them the last three games.

The game on Wednesday with Crossfield was a walk-over of 13-2. Red Deer came down on Thursday and played almost a faultless game, but they were outclassed, maybe, or it was Didsbury's day to win. Anyway a score of 3-1 against them was quite a bitter pill for the boys to swallow when they didn't expect the score to go that way.

Friday the Didsbury boys went to Carstairs where they were to play a game with Bowden, and that team not coming the game will go to Didsbury. However, a game was played with the Hawkesley which was sufficiently close to be quite exciting, the score standing 11-6 in favor of Didsbury.

Aid to Thoroughbred Stations

During recent years many appeals have been made to the Hon. Sydney Fisher, Minister of Agriculture, by horsemen anxious to bring about an improvement in the quality of our light horse stock and who are of opinion that for this purpose an infusion of thoroughbred blood is essential. Recognizing the force of these appeals as well as the importance of the subject, Mr. Fisher has decided to grant assistance under certain specific conditions to persons maintaining thoroughbred stations for service in the various provinces.

In deciding upon this step the minister has been largely influenced by the fact that while stations of other recognized breeds, when in capable hands, are as a rule fairly profitable, this is seldom the case with regard to the thoroughbred, the advantages of breeding to horses of this class being unfortunately not fully realized by the present generation of Canadian farmers.

The lack in our light horses of the quality derivable only from the infusion of thoroughbred blood is the subject of adverse comment by all European horsemen who visit the Dominion with a view to investigating its possibilities as a field for the purchase of horses, whether for military purposes or for ordinary harness or saddle use. In this connection it should be remembered that while horses for the last named, or in fact any of these purposes, may well be bred from sires other than thoroughbred, it is of importance that on the side of the dam there should, in order to produce the best results be, in such cases, a strong admixture of thoroughbred blood.

The conditions under which assistance will be given are as follows:

1. All horses on account of which aid is given by the Department must be registered in the thoroughbred stud book of the Canadian national live stock records.

2. Horses shall be of good size, quality and conformation and shall be free from all hereditary unsoundness; these conditions to be ensured by submission annually to a thorough, careful examination either at the hands of the Veterinary Director General or such other members of the veterinary staff of the Department, or other persons as the Minister may from time to time appoint for this purpose.

3. Horses so approved shall be duly and properly advertised to stand for service of mares, under the ordinary and general conditions usual in the districts in which they are to be kept, at an annual service fee (except in the case of thoroughbred mares) of not more than \$10 to insure, such service fee to become due and payable only when mare proves to be in foal.

Any person, firm or corporation owning or controlling any thoroughbred stallion in regard to which all of the conditions above set forth shall have been duly and properly fulfilled, shall, on production of satisfactory evidence thereof and of the fact that a reasonable number of mares, other

than thoroughbred mares, have been served during the season, be entitled to receive at the close of each such season the sum of \$250 from the funds of the Live Stock Board. If, in the event of a horse dying or becoming incapacitated for service during the season, an approved substitute is immediately placed in the same district, the Minister may, after due consideration of the circumstances, authorize the payment of the subsidy above mentioned.

The necessary forms will be furnished on application to the Veterinary Director General and Live Stock Commissioner, Department of Agriculture, Ottawa.

Paul Gilmore Coming

The Didsbury Silver Band wish to announce that they have secured Mr. Paul Gilmore, the noted American artist, in his greatest success, "The Mummy and the Humming Bird," under their auspices at the Opera House Friday, August 11th. This attraction is playing in Edmonton and Calgary and have one night open, therefore Mr. Weber was in a position to secure this attraction, which will be a treat to Didsbury and one that will long be remembered.

Members of the band will call on the local business people offering tickets for sale.

This is an attraction that should be well patronized.
